Location: Vancouver, BC | GitHub: github.com/michaeltamatey | LinkedIn: linkedin.com/in/michaeltamatey

Professional Summary

Enthusiastic and technically driven Android Developer with experience building mobile features using Kotlin and Java. Knowledgeable in Firebase integration, REST API handling, and mobile application optimization. Eager to contribute to innovative mobile platforms and collaborate across design and backend teams.

Technical Skills

Kotlin | Java | Android Studio | Firebase | REST APIs | Git | JSON | Debugging | UI/UX Collaboration

Projects

Campus Navigation App (Android, Java)

Built a mobile app that helped students navigate their campus. Used Google Maps API and Firebase for location tracking and real-time updates.

Pressure Washing Booking App (Java & Firebase)

Developed Android features to display services and manage bookings—Integrated Firebase for backend and user authentication.

Education

Diploma in Computer Information Systems
Holland College, Charlottetown, PE
2023 – 2025 (Expected)

Experience

Mobile Developer Intern

Freelance Projects, 2024 – Present

- Designed and implemented Android UI components using Kotlin
- Connected mobile features to backend services using Firebase and REST APIs
- Worked closely with mock design assets to meet UI/UX requirements

Certifications

- Android App Development with Kotlin – Udemy
- Firebase Essentials – LinkedIn Learning
