## Professional Summary

Detail-oriented Java Developer with hands-on experience in developing backend services and full-stack applications using Java, Spring Boot, and MySQL. Proven ability to work in Agile teams and deliver robust enterprise solutions. Experienced with TDD, REST APIs, and multithreaded applications.

## Technical Skills

Java | Spring Boot | REST APIs | MySQL | JDBC | Git | Agile | JUnit | JSON | Maven | OOP

## Projects

### Pressure Washing Platform
Built a full-featured service booking platform using Java and Spring Boot. Implemented JDBC DAO layer for report generation, multithreaded request handling, and monthly revenue tracking.

### Banking App
Developed a Java-based banking app that handles user registration, transactions, and balance tracking with object-oriented design and file storage.

## Education

Diploma in Information Technology
Holland College, Charlottetown, PE

## Experience

### Software Development Intern
Self-Employed Projects, 2023–2024

- Built multiple Java applications including booking systems and employee tracking tools
- Applied TDD using JUnit to ensure reliable and maintainable code
